2010 ANNUAL ADMINISTRATIVE CLAIMS DATA REPORT

INTRODUCTION

Thank you for your interest in the **2010 Annual Administrative Claims Data Report**. This report covers the inpatient hospital discharge, emergency department utilization and utilization of Cardiac Catheterization Labs by licensed Kentucky hospitals for the calendar year January 1, through December 31, 2010. The Cardiac Catheterization portion of this report was created in response to changes to the 2010-2012 State Health Plan which became effective September 15, 2010. Hospitals are no longer required to complete the Therapeutic and Diagnostic Cardiac Catheterization Procedures portion of the Annual Hospital Utilization Survey. The State Health Plan now specifies that cardiac catheterization utilization will be determined from administrative claims data submitted by hospitals as required by 900 KAR 7:030 – Data Reporting by Health Care Providers and be published in the Kentucky Annual Administrative Claims Data Report. The administrative claims data submitted by hospitals as required by 900 KAR 7:030 – Data Reporting by Health Care Providers was also used to produce the inpatient hospital discharge and emergency department utilization sections of this report. The sections were formerly included in the annual hospital utilization and services report.

The Kentucky Annual Administrative Claims Data Report uses the administrative claims data to determine utilization. The Certificate of Need Inventory of Health Facilities and Services provides information about the number of cardiac catheterization labs that have received CON approval. This list may be viewed on our web site at: <http://chfs.ky.gov/ohp/con/> .

The report is divided into 4 sections:

- ◆ **Section I – Maps of the locations of Diagnostic Cardiac Catheterization Labs and Therapeutic Cardiac Catheterization Labs in Kentucky**
- ◆ **Section II – Cardiac Catheterization Utilization**
- ◆ **Section III – Inpatient Utilization Data from Administrative Claims Data**
- ◆ **Section IV – Emergency Department Utilization Data from Administrative Claims Data**

The source of all data used to produce this report is the administrative claims data submitted pursuant to 900 KAR 7:030 – Data Reporting by Health Care Providers.

Questions or comments regarding the data contained in this report should be directed to Chandra Venettozzi at (502) 564-9592, ext. 3537 or Allison Lile at (502) 564-9592, ext. 4101, or e-mail: Chandra.Venettozzi@ky.gov or Allison.Lile@ky.gov.

This report becomes the most recent official data on hospital services utilization published by the Cabinet for Health Services. For additional copies of this report, please submit a request in writing along with a check in the amount of \$20.00 made payable to the Kentucky State Treasurer to:

SECTION II

Cardiac Catheterization Utilization

2010 ANNUAL ADMINISTRATIVE CLAIMS REPORT

Section II

Cardiac Catheterization Utilization

Cardiac catheterization is a diagnostic or therapeutic procedure in which a catheter is introduced into a large vein or artery, usually of an arm or leg, and threaded through the circulatory system to the heart. A single procedure lasts from the time the catheter is inserted until the time that the catheter is completely withdrawn from the patient. With regard to cardiac catheterization services the term “laboratory” (lab) means each dedicated room within a fixed-site facility which is individually equipped and staffed for the purposes of performing cardiac catheterizations.

To determine the number of cardiac catheterizations performed, each administrative claims record was examined to determine if it contained one of the following procedure codes. Inpatient Hospital Discharge records were examined for ICD-9 Procedure codes as published in the 2010 Professional Edition ICD-9-CM manual for Hospitals Volume 3, while Outpatient Services Records were examined for CPT Procedure codes as published in the 2010 Professional Edition Current Procedural Terminology manual.

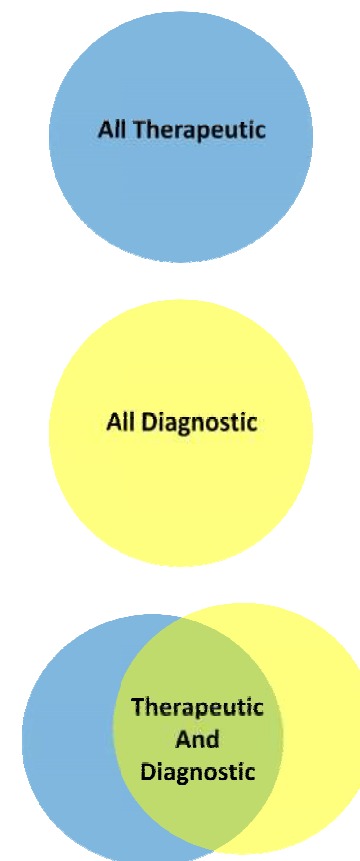

Diagnostic Catheterization		Therapeutic Catheterization	
ICD-9 Procedure Code	CPT/HCPCS Procedure Code	ICD-9 Procedure Code	CPT/HCPCS Procedure Code
0050 - 0051	33206 - 33207	0066	35490
3721 - 3723	33208	3606	35491
3726	93501	3607	35492
3780 - 3783	93503		35493
3785 - 3787	93505		35494
3794	93508		35495
885	93510 - 93511		92980
8850 - 8854	93514		92981
8859	93524		92982
	93526 - 93533		92984
	93619		G0290
	93620 - 93622		G0291
	93640 - 93642		
	93660		

NOTE: Electrophysiologic testing procedures were counted as “diagnostic” catheterizations.

All Therapeutic: Includes a count of the number of administrative claims records where the record included at least one Therapeutic Code regardless of the presence of any Diagnostic code(s).

All Diagnostic: Includes a count of the number of administrative claims records where the record included at least one Diagnostic Code regardless of the presence of any Therapeutic code(s)

Therapeutic & Diagnostic: Includes a count of the number of administrative claims records where the record included at least one Diagnostic code AND at least one Therapeutic code. This count includes the overlap of the previous two groups.

“Pediatric” means the patient age is 17 years or less. “Adult” means the patient age is 18 years or greater.

Table 1 shows therapeutic and diagnostic cardiac catheterization utilization.

SECTION IV

EMERGENCY DEPARTMENT UTILIZATION

2010 ANNUAL ADMINISTRATIVE CLAIMS DATA REPORT

SECTION IV

EMERGENCY DEPARTMENT UTILIZATION

TABLE 5: Emergency Department Utilization by Facility and Payor

CHART 5.1: Primary Payor, Kentucky Emergency Department Visits, 2010

CHART 5.2: Emergency Department Visits, Primary Payor vs. Kentucky Hospital ADD, 2010

TABLE 6.1: Selected Category Summary by Quarter, All Kentucky Hospitals

TABLE 6.2: Selected Category Summary by Quarter, Hospital ADDs

TABLE 7.1: Leading Twenty-five Primary Diagnosis, All Kentucky Hospitals

TABLE 7.2: Leading Twenty-five Primary Diagnosis by Hospital ADD

Notes

- 1) Data in Section IV was compiled from Kentucky hospital emergency department claims as submitted on Universal Electronic Billing Record (837) prior to May 24, 2011. These data may not correspond with data in the self-reported survey sections the Annual Hospital Utilization and Services Report. Emergency department utilization indicates a visit to an emergency department where the patient was treated and released or held for an observation stay, but the patient was not admitted to the hospital.
- 2) Table 5 and Charts 5.1 and 5.2 summarize emergency department visits by primary payor categories Medicaid, Medicare, and Other (Commercial, Other State or Federal Programs, and Passport MMC)
- 3) Tables 6.1 and 6.2 summarize quarterly emergency department visits by residence state, gender, age, type of service, month of service, and primary payor.
